GUIDE 10 · PRINT IT AND KEEP IT WITH YOUR KIT

A SAFE HOME

Prevent fire, gas and accidents before they happen.

MONTHLY	10 YRS	ABC
test your smoke alarms	lifespan of an alarm	extinguisher by the exit

01

SMOKE ALARMS

- Bedroom hallway and living area
- Away from kitchen and bathroom
- Test monthly
- Replace after 10 years

02

CARBON MONOXIDE

- Detector if you have gas, a fireplace or garage
- Near the bedrooms
- Several people dizzy or nauseous: get out, call

03

EXTINGUISHER AND BLANKET

- ABC extinguisher near the exit
- Fire blanket in the kitchen
- Never water on burning oil
- Not out in seconds? Get out

04

SHUT-OFFS

- Water: where and how
- Gas: where and how
- Breaker panel: the main switch

05

ESCAPE PLAN

- Two exits per room if possible
- Meeting point outside
- Keys always in the same place
- Practice it at night

06

EARTHQUAKES AND STORMS

- Anchor shelves and tall furniture
- Nothing heavy above beds
- Check roof tiles, pots and awnings

! If a fire isn't out within seconds: get out, close the door behind you and call emergency services from outside.
