BEST PREP.

GUIDE 12 · PRINT IT AND KEEP IT WITH YOUR KIT

PETS IN EMERGENCIES

Make sure your animal is identified, supplied and leaves with you.

1 OZ	3 DAYS	1
of water per lb daily · 60 ml/kg	of food in their kit	microchip with current details

01

IDENTIFICATION

- Microchip with up-to-date details
- Collar with tag and phone number
- A recent photo of you together

02

THEIR KIT

- Food for 3 days (2 weeks at home)
- Water: about 1 oz per lb · 60 ml per kg daily
- Medication and vaccination record
- Leash, harness and carrier

03

COMFORT

- Collapsible bowls
- Bags, litter and tray
- A blanket or toy that smells of home

04

WHERE TO GO

- Family or friends outside the area
- Pet-friendly lodging
- Your vet or boarding kennels
- A neighbor with a house key

05

IF YOU MUST EVACUATE

- Take them whenever you can
- Leave early: they hide when stressed
- Get them used to the carrier first

06

IF YOU CAN'T TAKE THEM

- Interior room with no windows
- Plenty of water and food
- Never tied up
- Tell the authorities

! If it isn't safe for you to stay, it isn't safe for your pet either. Plan their exit like your own.
