GUIDE 07 · PRINT IT AND KEEP IT WITH YOUR KIT

A TOILET WITHOUT WATER

The two-bucket toilet and hygiene when the toilet won't flush.

2	1 IN	½
lidded 5 gal · 20 L buckets	of absorbent at the bottom · 2-3 cm	seal the bag when half full

01

WHAT YOU NEED

- Two 5 gal · 20 L buckets with lids
- Heavy-duty contractor bags
- Cat litter, sawdust or shredded paper
- Gloves, toilet paper, soap

02

URINE BUCKET

- Liquids only
- Diluted, on soil away from wells and gardens
- Or down the drain if it works

03

SOLIDS BUCKET

- Double bag and 1 in · 2-3 cm of absorbent
- Cover with another layer after each use
- Lid always closed
- Half full: seal and remove

04

HYGIENE

- Handwashing comes first
- Jug with a spigot: little water
- Sanitizer complements, doesn't replace
- Disposable plates and cups

05

WASTE AND TRASH

- Sealed bags in a lidded bin
- Outside, in the shade
- Never buried near water
- Follow official instructions

06

YOUR SANITATION KIT

- 2 lidded buckets and a seat
- A roll of strong bags
- Toilet paper for two weeks
- Wipes, period products, diapers

! Without sanitation come diarrhea and infections. Set up the emergency toilet before you need it.
